Director's Desk

The Royal International School has been established on the behalf of the following virtues/motives:

We belong to a remote/far-flung area, which is backward completely in terms of education, Parents who so ever want to provide modern and creative education to their wards have to either shift permanently or adopt path of seasonal migration, which is a ticklish job itself.

We have a vision to eradicate such problems by establishing "The Royal International School", so that our children would be provided modern education comprehensively. We impart them modern education through modern ways/techniques.

The Royal International School has been established with the slogan, "We believe there is a spark in every child that needs to be candled," Our every step inside or outside class at every moment follows the slogan. We have adopted the modern ways of education through modern equipment to nourish/uphold the slogan.

In addition to the academic side, the best school provides opportunity to students to showcase their talent and explore their creative potentials. Alongside academics and curricular inputs, co - personality of the students. It also provides a platform to the buddy curricular and extra-curricular activities help to shape the overall students to develop their creative writing skills.
